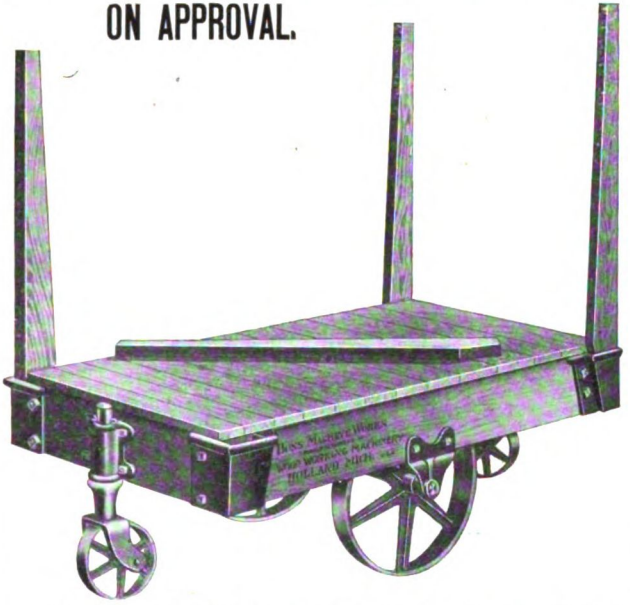
FACTORY TRUCKS

ON APPROVAL.



We have so much faith in our factory trucks we will send you samples to "TRY OUT." They speak for themselves. We believe them to be the strongest, easiest-running trucks made. The corners are all tenoned and bolted together through the BUSS NEW IMPROVED STAKE IRONS. The stakes have a tapering fit, are very rigid when in position, and are easily removed. SPECIAL QUOTATIONS ON LARGE LOTS. Special trucks made to order.

Buss Machine Works, Holland, Mich.
